

**Is your endoscope  
not working?**

**Then call us....  
or contact us by using  
the attached form**

**+49 (57 21) 890 38 56**

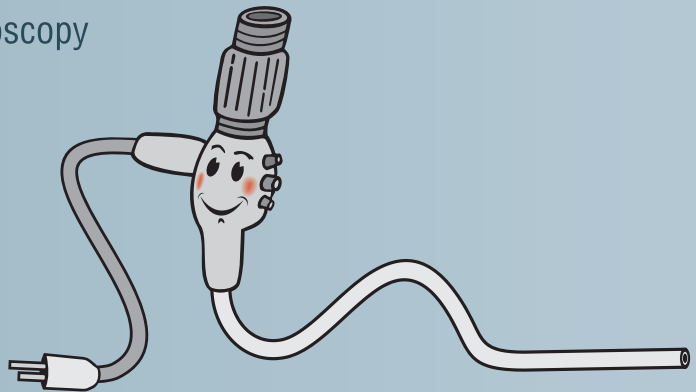

**We'd like to introduce ourselves:**

After 15 years of experience in maintenance and repair of endoscopes we decided to set up our own company 'MEDTech Endoskopservice'. Our goal is to help you reduce your costs regarding endoscopy without having to forfeit service and quality.

We repair endoscopes, bronchoscopes, video processors, pigtails, light sources and suction pumps from all manufacturers.

Of course we will tend to your entire endoscopy accessories as well.

In addition, we repair your rigid optics.

**Example of our work procedure:**

After you notify us of your broken device the repair process follows automatically. The device is collected and taken to our service workshop as quickly as possible. This is when the actual process begins. Your device is entered in the system and passed on to the next sector. A defect analysis is made to determine the estimated costs. You'll be notified about the damage and costs the same day by fax.

We grant a 6 months warranty period on all our repairs.

## Our additional services:

Is your endoscope being repaired and you wonder how to continue with your work? No problem. On request we will gladly lend you a replacement via our express service. All you have to do is contact us about your requirements. If you do so before 15:00 a replacement will be available the next work day. Simple, fast, uncomplicated and most notably: at no charge!

## Our price policy:

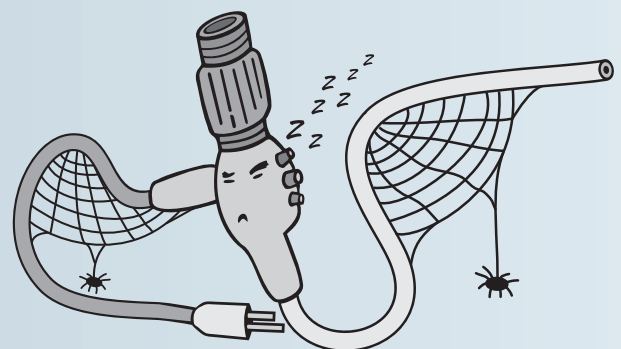

Now that you have gained some insight into our company, we have more good news regarding our price policy. The costs for a repair are 1/3 below usual market prices and therefore help to ease your budget. The lower prices are possible because we avoid unnecessary jobs and optimize the necessary repairs.

Moreover, we don't run a constant field service which results in an enormous cost saving which we pass on to you.

## Too much equipment?

In case you have old equipment that you don't need anymore and that is taking up space, contact us, we're always interested in used devices.

If it's the other way around and you need more equipment you can also contact us and we will help you fill up your space with reasonably priced equipment.

## Our partners:

Why remember 10 addresses when one is sufficient?  
With our co-operation partners you have everything you need at hand.

## A brief overview:

**ÄRZTE- & APOTHEKER-  
LEASING**

*... von Ärzten für Ärzte*

*Our partner for used  
and new equipment*

**HIMED GmbH**
